13. How much of the sun's radiation gets reflected by ice?

14. What redistributes energy from the equator to the north and south poles?

Assignment

Technology Education

Mr. Mynott

15. If the ice sheets of Western Antarctica were to melt, approximately how much would sea level rise?

16. List the three factors causing the collision between civilization and earth.

1.

2.

3.

17. Approximately, what percentages of global carbon dioxide emissions come from forest fires?

18. What country is the largest contributor of greenhouse gases into the atmosphere?

19. Which country has the lowest government standards for gas mileage of automobiles?

20. Which two nations have not signed onto the Kyoto Protocol?

Written Assignment

Write (using a computer) a one page response to the movie. It should be 1 page with 12 point Arial font and single spaced.

What should you include? I recommend that you use the Internet as a information source.

See below for guiding questions:

1. What do you think is the main issue revolving around Global Warming?
2. Who is responsible?
3. Who or What are the **BIG** contributors to global warming?
4. Besides ignoring Global Warming and “throwing our hands in the air” with frustration what can the individual do to help stop Global Warming?

Make sure that your assignment is neat and organized. If it is not it will be hard for me to read you brilliant ideas which will ultimately lead to a poor mark. If you have **ANY** questions you need to talk with me.

Thanks!

Mynott

Due: 7 days after handout

Should be emailed to me at cmynott@deltasd.bc.ca
